PROFILE SUMMARY

Gen-AI Creative professional experienced in building high-impact AI-generated advertisements, launch campaigns, cinematic digital experiences, and multilingual content pipelines for leading brands. Skilled in generative AI workflows, storytelling, post-production, and scalable creative operations across fast-paced production environments.

WORK EXPERIENCE

AdMitra Private Limited

Generative AI Creative Intern

Feb 2026 – May 2026

Bengaluru

- Led the creation of **video** and **poster ads** using AI tools, turning brand ideas into storyboards and **localized scripts in multiple languages**.
- Managed creative production workflows delivering **50+ localized ads monthly** for **Montra Electric**, **EkoTejas**, **Ampere**, and **Lincoln Pharma**.
- Collaborated directly with co-founders to launch campaigns optimized for **Instagram Reels** and **Facebook Ads**

Freelance Editor

Video Editor & Storyboard Artist

Oct 2025 – Jan 2026

Remote

- Edited long-form YouTube videos and Instagram Reels optimized for audience retention and engagement.
- Collaborated on storyboard creation, narrative pacing, and cinematic storytelling for creator-focused content.
- Produced short-form media using **personalized AI Generated B-Rolls**

PROJECTS

Montra Electric: Eviator Launch Video Production

AI Video Producer & Editor

Tech Stack: Kling V3 Pro, Seedance 2.0, ElevenLabs, DaVinci Resolve, Topaz Video AI

- Produced the **keynote launch film** for Montra Electric's Eviator Range from **storyboard planning to large-screen event delivery**.
- Generated cinematic AI visuals using Kling and Seedance 2.0 for realistic EV reveal presentations.
- Integrated AI-generated narration and voiceovers using ElevenLabs with **synchronized pacing and scene transitions**.
- Contributed to editing, pacing, and visual enhancement for keynote level projection quality.
- Upscaled final outputs using Topaz AI to ensure high-resolution clarity across event displays.

Lincoln Pharma: PA12 Launch Drama

AI Video & Audio Specialist

Tech Stack: HeyGen, Kling, ElevenLabs

- Co-created a **15-minute pharmaceutical product launch film** for an **international campaign** under a strict 2-day deadline.
- Generated realistic AI avatar performances using HeyGen with **region-specific lip-sync** delivery.
- Produced cinematic AI-generated action sequences and b-roll visuals using Kling for dynamic storytelling.
- Created synchronized **multi-character AI narration** and voiceovers using ElevenLabs.
- Successfully transformed a planned live event into a complete digital launch experience with rapid execution.
